Tasselora® Threads & Yarns - Standard Care Guide

Every thread holds a story—and every fiber deserves care.

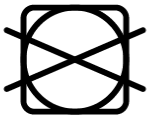

These care instructions apply universally across all handcrafted trims, cords, tassels, fringes, and yarns offered by **Tasselora®**, including fibers like cotton, jute, viscose, rayon, silk, polyester, zari, wood, and beaded glass.

Do Not Wash

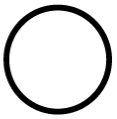

Do Not Bleach

Do Not Tumble Dry

Do Not Iron

Dry Clean

Care Symbols (Applicable for All Tasselora® Products)

Do Not Wash

These handcrafted items should never be submerged or machine washed. Water can shrink, distort, or weaken the structure of fibers like viscose, rayon, and jute.

Do Not Bleach

Bleaching agents damage dyes and destroy delicate natural or metallic fibers. Only spot clean with a soft, damp cloth and pH-neutral detergent if needed.

Do Not Tumble Dry

Tassels, fringes, and decorative trims should never go in the dryer. Use natural drying methods—preferably laid flat in shade—to retain shape and finish.

Do Not Iron

Direct heat can melt synthetic yarns, dull silk luster, or damage zari. If needed, use a steamer at a safe distance or reshape gently with hands while slightly damp.

Dry Clean Only

Professional dry cleaning is the safest cleaning method for all Tasselora® products. It preserves fiber integrity, color vibrancy, and decorative finishes.
